

Welcome to the Kidney Clinic at Harborview

At the Kidney Clinic, we offer assessment and care to people who have high blood pressure and different types of kidney disease. Many of our patients have kidney failure, are on kidney dialysis, or have had a kidney transplant. We provide full, high-quality service to all our patients.

The Kidney Clinic is on the 7th floor of the Maleng Building.

Our Kidney Care Team includes doctors, nurses, and pharmacists. With these experts on staff, we can meet all your kidney care needs. We also help educate new doctors who are training to be kidney specialists. These doctors will work with your care team.

As a patient at the Kidney Clinic, you may be able to take part in a clinical research study. These studies help us design new treatments for patients with kidney diseases.

If you have any questions about the clinic, please call 206.744.8998 weekdays from 8 a.m. to 4 p.m.

Your Clinic Visit

To set up your clinic visit, please call **206.744.8998**. When you come for your visit, be sure to bring these items:

- Your **medical records**, including results of any recent diagnostic tests.
- All of your **medicine bottles**. This includes prescription drugs, medicines you bought without a prescription, vitamins, supplements, and herbal products.
- Your **insurance card** and copay, if needed.
- A **photo ID**, such as your driver's license or passport.

Please check in 15 minutes before your appointment time. Staff at the front desk will ask for your photo ID each time you check in.

It is very important that you keep your appointment. To reschedule, please call 206.744.8998 at least 24 hours before your appointment.

Questions?

Your questions are important. Please call us if you have questions or concerns.
